E = Editorial; CPC = Clinicopathologic Conference; MSS = Medicine, Science, and Society;
CCBSS = Combined Clinical and Basic Science Seminars

Abdominal catastrophe

Abdominal catastrophe in a 66-year-old man (CPC), 138

Absorption

Effect of 1,25-dihydrovitamin D₃ on calcium and magnesium absorption in the healthy human jejunum and ileum, 973

Acetylation

Aromatic amines and the pathogenesis of lupus erythematosus (CCBSS), 1037
Lupus erythematosus-like disease due to hydrazine, 365

Acid-base balance

Lactic acidosis in severe asthma, 580
Sodium bicarbonate therapy in severe diabetic ketoacidosis, 263

Acidosis

Abdominal catastrophe in a 66-year-old man (CPC), 138
Acute cocaine poisoning. Importance of treating seizures and acidosis, 1061
Lactic acidosis in severe asthma, 580

Acquired immunodeficiency syndrome

Central nervous system toxoplasmosis in homosexual men, 877
Multiple infections and death in a homosexual man (CPC), 855

Acridinyl anisidine

Autologous marrow transplantation after karyotypic conversion to normal in blastic phase of chronic myelocytic leukemia, 1080

Acupuncture

Effective treatment for smoking cessation, 1033

Acute bronchial asthma

Efficacy of short-term corticosteroid therapy in outpatient treatment of acute bronchial asthma, 259

Acute hepatic insufficiency

Acute hepatic insufficiency of the chronic alcoholic—revisited (E), 1

Acute myocardial infarction

Clinical characteristics and results of noninvasive tests in 60 diabetic patients after acute myocardial infarction, 217

Acute nonlymphocytic leukemia

Acute nonlymphocytic leukemia after treatment for Hodgkin's disease, 449
Familial leukemia and aplastic anemia associated with monosomy 7, 756
Hepatitis in patients with acute nonlymphocytic leukemia, 413

Acute renal failure

Acute renal failure, skin rash, and eosinophilia associated with captopril therapy, 154

Addiction

Acute hepatic insufficiency of the chronic alcoholic—revisited (E), 1

Prospective study of alcoholism treatment. Eight-year follow-up, 455

Adenoma

Hypercalcemia and chest pain in a 48-year-old man (CPC), 337

Adrenal disease

Computed tomographic scanning versus radioisotope imaging in adrenocortical diagnosis, 653
Distinctive plasma aldosterone, 18-hydroxycorticosterone, and 18-hydroxydeoxycorticosterone profile in the 21-, 17 α -, and 11 β -hydroxylase deficiency types of congenital adrenal hyperplasia, 43

Adverse effects

Acute renal failure, skin rash, and eosinophilia associated with captopril therapy, 154
Aggressive large cell lymphoma of the ileum after long-term cyclophosphamide therapy for breast carcinoma, 882
Aromatic amines and the pathogenesis of lupus erythematosus (CCBSS), 1037
Cardiopulmonary toxicity in patients with breast carcinoma during plasma perfusion over immobilized protein A. Pathophysiology of reaction and attenuating methods, 278
Cimetidine-induced cutaneous vasculitis, 875
Complications of therapeutic apheresis, including a fatal case with pulmonary vascular occlusion, 171
Death from cerebral hypoperfusion during nitroprusside treatment of acute angiotensin-dependent hypertension, 1071
Hydroxychloroquine in the treatment of rheumatoid arthritis, 321
Lupus erythematosus-like disease due to hydrazine, 365
Pyridoxine deficiency and peripheral neuropathy associated with long-term phenelzine therapy, 887
Radioiodine-induced thyroid storm. Case report and literature review, 353
Safety and efficacy of intravenous quinidine, 36
T and B lymphocyte subsets in fenopropfen nephropathy, 9

Aging

Aging and the thyroid. Decreased requirement for thyroid hormone in older hypothyroid patients, 206
Differential changes of autonomic nervous system function with age in man, 249
Evidence for two distinct syndromes of involutional osteoporosis (E), 899

Frequency and distribution of senile cardiovascular amyloid. A clinicopathologic correlation, 618

AIDS

Central nervous system toxoplasmosis in homosexual men, 877
Multiple infections and death in a homosexual man (CPC), 855

Airways

Airway function in lifetime-nonsmoking older asbestos workers, 631
Bronchodilator response to oral aminophylline and terbutaline versus aerosol albuterol in patients with chronic obstructive pulmonary disease, 697
Effect of outpatient treatment of asthma with beta agonists on the response to sympathomimetics in an emergency room, 781
Lactic acidosis in severe asthma, 580
Ventilatory failure due to asbestos pleurisy, 911

Albuterol

Bronchodilator response to oral aminophylline and terbutaline versus aerosol albuterol in patients with chronic obstructive pulmonary disease, 697

Alcohol

Acute isopropyl alcohol intoxication. Diagnosis and management, 680

Alcoholism

Acute hepatic insufficiency of the chronic alcoholic—revisited (E), 1
Prospective study of alcoholism treatment. Eight-year follow-up, 455

Aldosterone

Computed tomographic scanning versus radioisotope imaging in adrenocortical diagnosis, 653
Distinctive plasma aldosterone, 18-hydroxycorticosterone, and 18-hydroxydeoxycorticosterone profile in the 21-, 17 α -, and 11 β -hydroxylase deficiency types of congenital adrenal hyperplasia, 43

Alpha₁-antitrypsin

Panniculitis associated with histoplasmosis and alpha₁-antitrypsin deficiency, 150

Alphafetoprotein

Serum tumor markers in patients with metastatic germ cell tumors of the testis. A 10-year experience, 29
Testicular germ cell neoplasms, 817

Ambulatory monitoring

Sudden death during ambulatory monitoring. Analysis of six cases, 801

Amenorrhea

Hyperprolactinemia. Long-term effects of bromocriptine, 868

Aminophylline

Bronchodilator response to oral aminophylline and terbutaline versus aerosol albuterol in patients with chronic obstructive pulmonary disease, 697

Amphotericin

Amphotericin B nephrotoxicity in humans decreased by salt repletion, 476

Amyloid

Frequency and distribution of senile cardiovascular amyloid. A clinicopathologic correlation, 618

Amyloidosis

Esophageal manometry in systemic amyloidosis. A study of 30 patients, 951

Anaerobic osteomyelitis

Unusual presentation of anaerobic osteomyelitis, 724

Anaphylaxis

Complications of therapeutic apheresis, including a fatal case with pulmonary vascular occlusion, 171

Anemia

Familial leukemia and aplastic anemia associated with monosomy 7, 756

Aneurysm

Chest pain, collapse, and death in late pregnancy (CPC), 691
Subepicardial aneurysms: a rare complication of myocardial infarction, 636

Angina pectoris

Relation of therapeutic response to nifedipine to coronary anatomy and motion of S-T segment during unstable angina pectoris, 57

Angiography

Implications of normal exercise electrocardiographic results in patients with angiographically documented coronary artery disease. Correlation with left ventricular function and myocardial perfusion, 439
Pulmonary angiography. Application in a new spectrum of patients, 763

Angiotensin

Death from cerebral hypoperfusion during nitroprusside treatment of acute angiotensin-dependent hypertension, 1071
Suppression of the renin-angiotensin system by intravenous digoxin in chronic congestive heart failure, 445

Angiotensin-converting enzyme

Elevated serum angiotensin-converting enzyme in hyperthyroidism, 233
Successful management of severe congestive cardiac failure with enalapril, 721

Ankylosing spondylitis

HLA B27-associated rheumatic diseases with severe cardiac bradyarrhythmias. Clinical features and prevalence in 223 men with permanent pacemakers, 210

Antibiotic therapy

Efficacy of intravenous vancomycin in the treatment of gram-positive peritonitis in long-term peritoneal dialysis, 345
Serious infections due to group G streptococci. Report of 15 cases with in vitro-in vivo correlations, 561

Antibodies

Anticytoplasmic antibodies in antinuclear antibody-negative lupus erythematosus. Correlation with clinical course, 529
Genetic abnormalities of immunoregulation in primary biliary cirrhosis, 75
Idiopathic thrombocytopenic purpura, 1001
Serologic evidence for acute toxoplasmosis in polymyositis-dermatomyositis. Increased frequency of specific anti-Toxoplasma IgM antibodies, 313

Anticoagulants

Prospective trial of warfarin and dipyridamole in patients with membranoproliferative glomerulonephritis, 920

Anticytoplasmic antibodies

Anticytoplasmic antibodies in antinuclear antibody-negative lupus erythematosus. Correlation with clinical course, 529

Antimalarial therapy

Hydroxychloroquine in the treatment of rheumatoid arthritis, 321

Antinuclear antibodies

Anticytoplasmic antibodies in antinuclear antibody-negative lupus erythematosus. Correlation with clinical course, 529
Induction of polymeric IgA rheumatoid factors in infective endocarditis, 785

Antiplatelet antibodies

Idiopathic thrombocytopenic purpura, 1001

Anti-ribosomal ribonucleoprotein antibodies

Anticytoplasmic antibodies in antinuclear antibody-negative lupus erythematosus. Correlation with clinical course, 529

Antithrombotic therapy

Prospective trial of warfarin and dipyridamole in patients with membranoproliferative glomerulonephritis, 920

Aorta

Chest pain, collapse, and death in late pregnancy (CPC), 691
Frequency and distribution of senile cardiovascular amyloid. A clinicopathologic correlation, 618
Metastatic periosteal osteosarcoma causing cardiac and renal failure, 145

Apheresis

Complications of therapeutic apheresis, including a fatal case with pulmonary vascular occlusion, 171

Aplastic anemia

Familial leukemia and aplastic anemia associated with monosomy 7, 756
Precedents for meaningful recovery during treatment in a medical intensive care unit. Outcome in patients with hematologic malignancy, 402

Apolipoproteins

Apolipoprotein B subspecies in chylomicrons isolated from a patient with chyluria, 360
Massive omental reticuloendothelial cell lipid uptake in Tangier disease after splenectomy, 521

Aromatic amines

Aromatic amines and the pathogenesis of lupus erythematosus (CCBS), 1037

Arrhythmia

Chagas' disease in northern California. No longer an endemic diagnosis, 1057
Delayed repolarization syndrome, 393
HLA B27-associated rheumatic diseases with severe cardiac bradyarrhythmias. Clinical features and prevalence in 223 men with permanent pacemakers, 210
Prophylactic use of lidocaine to prevent advanced ventricular arrhythmias during pulmonary artery catheterization. Prospective double-blind study, 906
Safety and efficacy of intravenous quinidine, 36
Sudden death during ambulatory monitoring. Analysis of six cases, 801

Arsenic

Misuse of hair analysis for nutritional assessment, 489

Art

The generalist: a jaundiced view, XXIII (MSS), 381

Arteritis

Pregnancy and Takayasu's arteritis, 597

Arthritis

Arthritis of hemochromatosis. Clinical spectrum, relation to histocompatibility antigens, and effectiveness of early phlebotomy, 957
Budd-Chiari syndrome and renal failure in Behcet disease. Report of a case and review of the literature, 541
HLA B27-associated rheumatic diseases with severe cardiac bradyarrhythmias. Clinical features and prevalence in 223 men with permanent pacemakers, 210
Hydroxychloroquine in the treatment of rheumatoid arthritis, 321
Lyme disease, 663
Serious infections due to group G streptococci. Report of 15 cases with in vitro-in vivo correlations, 561

Asbestos

Airway function in lifetime-nonsmoking older asbestos workers, 631
Ventilatory failure due to asbestos pleurisy, 911

Asthma

Effect of outpatient treatment of asthma with beta agonists on the response to sympathomimetics in an emergency room, 781
Efficacy of short-term corticosteroid therapy in outpatient treatment of acute bronchial asthma, 259
Lactic acidosis in severe asthma, 580
Sputum and blood eosinophils during corticosteroid treatment of acute exacerbations of asthma, 929

Atherosclerosis

Cyanotic feet and renal failure in a 67-year-old man (CPC), 509

Atrium

Frequency and distribution of senile cardiovascular amyloid. A clinicopathologic correlation, 618

Autoantibodies

Induction of polymeric IgA rheumatoid factors in infective endocarditis, 785

Autologous marrow transplantation

Autologous marrow transplantation after karyotypic conversion to normal in blastic phase of chronic myelocytic leukemia, 1080

Autonomic nervous system

Differential changes of autonomic nervous system function with age in man, 249

Autopsy

Medical genetics, Huntington's chorea, and legal questions pertaining to autopsy, 157

Bacteremia

Bacteremia due to *Fusobacterium* species, 225
Effect of underlying disease and age on pneumococcal serotype distribution, 199

Bacterial infection

Bacteremia due to *Fusobacterium* species, 225
Effect of underlying disease and age on pneumococcal serotype distribution, 199
Efficacy of intravenous vancomycin in the treatment of gram-positive peritonitis in long-term peritoneal dialysis, 345
Fulminant pneumonia and death in an immunocompromised woman (CPC), 1043
Legionella pneumophila pericarditis proved by culture of pericardial fluid, 534
Rheumatic fever and the *Streptococcus*. Another look at molecular mimicry (E), 727
Serious infections due to group G streptococci. Report of 15 cases with in vitro-in vivo correlations, 561

Balloon counterpulsation

Comparison of wire-guided percutaneous insertion and conventional surgical insertion of intra-aortic balloon pumps in 151 patients, 24

Baroreceptor function

Differential changes of autonomic nervous system function with age in man, 249

B cells

Alterations in lymphocyte cell surface markers during various human infections, 807
Fasting-enhanced immune effector mechanisms in obese subjects, 91
T and B lymphocyte subsets in fenoprofen nephropathy, 9

Behcet disease

Budd-Chiari syndrome and renal failure in Behcet disease. Report of a case and review of the literature, 541

Beta agonists

Effect of outpatient treatment of asthma with beta agonists on the response to sympathomimetics in an emergency room, 781

Blake, William

The generalist: a jaundiced view, XXVI (MSS), 902

Bleeding

Acute upper gastrointestinal hemorrhage in patients with chronic renal disease, 409
Idiopathic thrombocytopenic purpura, 1001

Bleomycin

Cisplatin, vindesine, and bleomycin chemotherapy of local-regional and advanced esophageal carcinoma, 645

Blood pressure

Acute renal failure, skin rash, and eosinophilia associated with captopril therapy, 154

Chest pain, collapse, and death in late pregnancy (CPC), 691

Conflicting clinical trials and the uncertainty of treating mild hypertension, 482

Death from cerebral hypoperfusion during nitroprusside treatment of acute angiotensin-dependent hypertension, 1071

Hypertension and hyperparathyroidism. Inverse relation of serum phosphate level and blood pressure, 17

Minimal-change lesion nephrotic syndrome with renal oncocytoma, 715
Pregnancy and Takayasu's arteritis, 597

Prevalence and clinical correlates of pulmonary arterial hypertension in progressive systemic sclerosis, 65
Simultaneous treatment of Raynaud's phenomenon and orthostatic hypotension, 537
Suppression of the renin-angiotensin system by intravenous digoxin in chronic congestive heart failure, 445

Bone disease

Evidence for two distinct syndromes of involutional osteoporosis (E), 899
Metastatic periosteal osteosarcoma causing cardiac and renal failure, 145
Risk factors for spinal osteoporosis in men, 977
Unusual presentation of anaerobic osteomyelitis, 724

Bone marrow

Autologous marrow transplantation after karyotypic conversion to normal in blastic phase of chronic myelocytic leukemia, 1080

Botulism

Human botulism (type F)—a rare type, 893

Bowel infarction

Diagnosis and outcome of bowel infarction on an acute medical service, 984

Bradycardia

Chagas' disease in northern California. No longer an endemic diagnosis, 1057

Breast carcinoma

Aggressive large cell lymphoma of the ileum after long-term cyclophosphamide therapy for breast carcinoma, 882
Cardiopulmonary toxicity in patients with breast carcinoma during plasma perfusion over immobilized protein A. Pathophysiology of reaction and attenuating methods, 278

Bromocriptine

Hyperprolactinemia. Long-term effects of bromocriptine, 868

Bronchial asthma

Efficacy of short-term corticosteroid therapy in outpatient treatment of acute bronchial asthma, 259
Lactic acidosis in severe asthma, 580

Bronchodilators

Bronchodilator response to oral aminophylline and terbutaline versus aerosol albuterol in patients with chronic obstructive pulmonary disease, 697

Effect of outpatient treatment of asthma with beta agonists on the response to sympathomimetics in an emergency room, 781

Bronchogenic carcinoma

Treatment of extensive stage small cell bronchogenic carcinoma. Effects of variation in intensity of induction chemotherapy, 993

Budd-Chiari syndrome

Budd-Chiari syndrome and renal failure in Behcet disease. Report of a case and review of the literature, 541

C4

Genetic deficiency of C4 presenting with recurrent infections and a SLE-like disease. Genetic and immunologic studies, 295

Cadmium

Misuse of hair analysis for nutritional assessment, 489

Calcium

Effect of 1,25-dihydrovitamin D₃ on calcium and magnesium absorption in the healthy human jejunum and ileum, 973

Evaluation of calcium-mediated vasoconstriction in chronic congestive heart failure, 795

Hypercalcemia and chest pain in a 48-year-old man (CPC), 337

Hypertension and hyperparathyroidism. Inverse relation of serum phosphate level and blood pressure, 17

Calcium antagonists

Relation of therapeutic response to nifedipine to coronary anatomy and motion of S-T segment during unstable angina pectoris, 57

Calories

Diet-induced changes in serum transaminase and triglyceride levels in healthy adult men. Role of sucrose and excess calories, 624

Captopril

Acute renal failure, skin rash, and eosinophilia associated with captopril therapy, 154

Carbon dioxide

Neuromechanical properties in obese patients during carbon dioxide rebreathing, 81

Carbon monoxide

Absence of positional change in pulmonary diffusing capacity in systemic sclerosis, 305

Carcinoembryonic antigen

Serum tumor markers in patients with metastatic germ cell tumors of the testis. A 10-year experience, 29

Carcinoid heart disease

Cardiac valvular replacement in carcinoid heart disease, 896

Carcinoma

Aggressive large cell lymphoma of the ileum after long-term cyclophosphamide therapy for breast carcinoma, 882

Analysis of T cell subsets in cancer patients treated with interferon, 966

Anaplastic thyroid cancer presenting with hyperthyroidism, 702

Cardiac valvular replacement in carcinoid heart disease, 896

Cardiopulmonary toxicity in patients with breast carcinoma during plasma perfusion over immobilized protein A. Pathophysiology of reaction and attenuating methods, 278

- Multiple infections and death in a homosexual man, 855

Clostridium botulinum

- Human botulism (type F)—a rare type, 893

Cocaine

- Acute cocaine poisoning. Importance of treating seizures and acidosis, 1061

Colorectal cancer

- Effective retreatment of patients with colorectal cancer and liver metastases, 237

Combination chemotherapy

- Acute nonlymphocytic leukemia after treatment for Hodgkin's disease, 449
- Cisplatin, vindesine, and bleomycin chemotherapy of local-regional and advanced esophageal carcinoma, 645
- Testicular germ cell neoplasms, 817
- Treatment of extensive stage small cell bronchogenic carcinoma. Effects of variation in intensity of induction chemotherapy, 993

Combined Clinical and Basic Science

Seminars

- Aromatic amines and the pathogenesis of lupus erythematosus, 1037
- Nutrition and cancer, 843

Communication

- General medicine consultation. Lessons from a clinical service, 121

Complement

- Budd-Chiari syndrome and renal failure in Behcet disease. Report of a case and review of the literature, 541
- Genetic deficiency of C4 presenting with recurrent infections and a SLE-like disease. Genetic and immunologic studies, 295

Complement fixation

- Chagas' disease in northern California. No longer an endemic diagnosis, 1057

Computed tomography

- Computed tomographic scanning versus radioisotope imaging in adrenocortical diagnosis, 653
- Empty sella of normal size in Sheehan's syndrome, 585
- How accurate are computed tomographic scans in assessment of changes in tumor size? 193

Conduction defects

- Chagas' disease in northern California. No longer an endemic diagnosis, 1057
- HLA B27-associated rheumatic diseases with severe cardiac bradyarrhythmias. Clinical features and prevalence in 223 men with permanent pacemakers, 210
- Safety and efficacy of intravenous quinidine, 36
- Sudden death during ambulatory monitoring. Analysis of six cases, 801

Congenital adrenal hyperplasia

- Distinctive plasma aldosterone, 18-hydroxycorticosterone, and 18-hydroxydeoxycorticosterone profile in the 21-, 17 α -, and 11 β -hydroxylase deficiency types of congenital adrenal hyperplasia, 43

Congestive heart failure

- Congestive heart failure: echocardiographic insights, 750
- Evaluation of calcium-mediated vasoconstriction in chronic congestive heart failure, 795
- Successful management of severe congestive cardiac failure with enalapril, 721
- Suppression of the renin-angiotensin system by intravenous digoxin in chronic congestive heart failure, 445

Conjunctivitis

- Budd-Chiari syndrome and renal failure in Behcet disease. Report of a case and review of the literature, 541

Consultation

- General medicine consultation. Lessons from a clinical service, 121

Coronary anatomy

- Relation of therapeutic response to nifedipine to coronary anatomy and motion of S-T segment during unstable angina pectoris, 57

Coronary artery disease

- Cholesterol, cancer, and public health policy, 494

- Ear lobe crease and coronary artery disease. 1,000 patients and review of the literature, 1024

- Estimating the likelihood of significant coronary artery disease, 771

- Exercise and heart disease. Epidemiology of the "exercise hypothesis", 1008

- Implications of normal exercise electrocardiographic results in patients with angiographically documented coronary artery disease. Correlation with left ventricular function and myocardial perfusion, 439

- Sudden death during ambulatory monitoring. Analysis of six cases, 801

Cor pulmonale

- Effects of oral hydralazine on gas exchange in patients with cor pulmonale, 937

Corticosteroids

- Efficacy of short-term corticosteroid therapy in outpatient treatment of acute bronchial asthma, 259
- Presentation, treatment, and prognosis of idiopathic inflammatory muscle disease in a rural hospital, 433
- Sputum and blood eosinophils during corticosteroid treatment of acute exacerbations of asthma, 929

Cost efficiency

- Cost efficiency in study planning and completion. How many cases? How many controls? 833

Creatinine

- Renal functional reserve in humans. Effect of protein intake on glomerular filtration rate, 943

Cryopreservation

- Autologous marrow transplantation after karyotypic conversion to normal in blastic phase of chronic myelocytic leukemia, 1080

Cryptococcus

- Multiple infections and death in a homosexual man (CPC), 855

Culture

- Legionella pneumophila pericarditis proved by culture of pericardial fluid, 534

Cushing's syndrome

- Computed tomographic scanning versus radioisotope imaging in adrenocortical diagnosis, 653

Cutaneous vasculitis

- Cimetidine-induced cutaneous vasculitis, 875

Cyanosis

- Cyanotic feet and renal failure in a 67-year-old man (CPC), 509
- Simultaneous treatment of Raynaud's phenomenon and orthostatic hypotension, 537

Cyclophosphamide

- Aggressive large cell lymphoma of the ileum after long-term cyclophosphamide therapy for breast carcinoma, 882

Cytomegalovirus

- Multiple infections and death in a homosexual man (CPC), 855

Decision making

- Metadiagnosis. An epistemologic model of clinical judgment, 129

- Precedents for meaningful recovery during treatment in a medical intensive care unit. Outcome in patients with hematologic malignancy, 402
- Dermatomyositis**
Presentation, treatment, and prognosis of idiopathic inflammatory muscle disease in a rural hospital, 433
Serologic evidence for acute toxoplasmosis in polymyositis-dermatomyositis. Increased frequency of specific anti-Toxoplasma IgM antibodies, 313
- Diabetes mellitus**
Abnormal zinc metabolism in type II diabetes mellitus, 273
Clinical characteristics and results of noninvasive tests in 60 diabetic patients after acute myocardial infarction, 217
Efficacy of home glucose monitoring in diabetic pregnancy, 592
Hypokalemia and diabetes mellitus (E), 553
Insulin and glucose requirements during the first stage of labor in insulin-dependent diabetic women, 607
Nondiabetic renal disease in patients with diabetes mellitus, 613
Normolipemic subcutaneous xanthomatosis, 1065
Rapid healing of diabetic foot ulcers with continuous subcutaneous insulin infusion, 161
Sodium bicarbonate therapy in severe diabetic ketoacidosis, 263
- Diagnosis**
Analysis of the differential diagnosis and assessment of pleuritic chest pain in young adults, 671
Clinical utility and management impact of M-mode echocardiography, 49
Clinical utility of pericardial fluid pH determination, 1077
Combined testing of anterior pituitary gland with insulin, thyrotropin-releasing hormone, and luteinizing hormone-releasing hormone, 471
Computed tomographic scanning versus radioisotope imaging in adrenocortical diagnosis, 653
Detection of left ventricular dysfunction in ambulatory subjects with the bedside Valsalva maneuver, 241
Diagnosis and outcome of bowel infarction on an acute medical service, 984
Ear lobe crease and coronary artery disease. 1,000 patients and review of the literature, 1024
Empty sella of normal size in Sheehan's syndrome, 585
Estimating the likelihood of significant coronary artery disease, 771
High-dose gallium imaging in lymphoma, 327
How accurate are computed tomographic scans in assessment of changes in tumor size? 193
Implications of normal exercise electrocardiographic results in patients with angiographically documented coronary artery disease. Correlation with left ventricular function and myocardial perfusion, 439
Intrapericardial pheochromocytoma, 371
Legionella pneumophila pericarditis proved by culture of pericardial fluid, 534
Metadiagnosis. An epistemologic model of clinical judgment, 129
Misuse of hair analysis for nutritional assessment, 489
Neoplastic meningitis. Marked variations of cerebrospinal fluid composition in the absence of extradural block, 289
Nondiabetic renal disease in patients with diabetes mellitus, 613
Prevalence and clinical correlates of pulmonary arterial hypertension in progressive systemic sclerosis, 65
Pulmonary angiography. Application in a new spectrum of patients, 763
Serum tumor markers in patients with metastatic germ cell tumors of the testis. A 10-year experience, 29
The nature of illness and diagnosis (MSS), 555
- Dialysis**
Efficacy of intravenous vancomycin in the treatment of gram-positive peritonitis in long-term peritoneal dialysis, 345
Rhodotorula rubra peritonitis in patients undergoing continuous ambulatory peritoneal dialysis, 349
Systemic lupus erythematosus in patients with chronic renal failure, 602
T cell subsets and cellular immunity in end-stage renal disease, 734
- Diet**
Cholesterol, cancer, and public health policy, 494
Diet-induced changes in serum transaminase and triglyceride levels in healthy adult men. Role of sucrose and excess calories, 624
Effect of 1,25-dihydroxyvitamin D₃ on calcium and magnesium absorption in the healthy human jejunum and ileum, 973
Misuse of hair analysis for nutritional assessment, 489
Nutrition and cancer (CCBSS), 843
Renal functional reserve in humans. Effect of protein intake on glomerular filtration rate, 943
- Diffusing capacity**
Absence of positional change in pulmonary diffusing capacity in systemic sclerosis, 305
- Digitalis**
Suppression of the renin-angiotensin system by intravenous digoxin in chronic congestive heart failure, 445
- Digoxin**
Suppression of the renin-angiotensin system by intravenous digoxin in chronic congestive heart failure, 445
- 1,25-Dihydroxyvitamin D**
Effect of 1,25-dihydroxyvitamin D₃ on calcium and magnesium absorption in the healthy human jejunum and ileum, 973
- Dipyridamole**
Prospective trial of warfarin and dipyridamole in patients with membranoproliferative glomerulonephritis, 920
- Disseminated histoplasmosis**
T lymphocyte abnormalities in disseminated histoplasmosis, 790

- The nature of illness and diagnosis, 555

Membranoproliferative glomerulonephritis

- Prospective trial of warfarin and dipyridamole in patients with membranoproliferative glomerulonephritis, 920

Meningitis

- Neoplastic meningitis. Marked variations of cerebrospinal fluid composition in the absence of extradural block, 289

Mercury

- Misuse of hair analysis for nutritional assessment, 489

Metastasis

- Cardiac valvular replacement in carcinoid heart disease, 896

- Effective retreatment of patients with colorectal cancer and liver metastases, 237

- Metastatic periosteal osteosarcoma causing cardiac and renal failure, 145
- Serum tumor markers in patients with metastatic germ cell tumors of the testis. A 10-year experience, 29

Methylprednisolone

- Efficacy of short-term corticosteroid therapy in outpatient treatment of acute bronchial asthma, 259

Microbiology

- Effect of underlying disease and age on pneumococcal serotype distribution, 199

Mitomycin C

- Effective retreatment of patients with colorectal cancer and liver metastases, 237

M-mode echocardiography

- Clinical utility and management impact of M-mode echocardiography, 49

Monosomy 7

- Familial leukemia and aplastic anemia associated with monosomy 7, 756

Motility

- Esophageal manometry in systemic amyloidosis. A study of 30 patients, 951

Multiple infections

- Multiple infections and death in a homosexual man (CPC), 855

Muscle disease

- Presentation, treatment, and prognosis of idiopathic inflammatory muscle disease in a rural hospital, 433

Mycobacterium tuberculosis

- Fulminant pneumonia and death in an immunocompromised woman (CPC), 1043

Myocardial infarction

- Acute pulmonary edema due to ischemic heart disease without accompanying myocardial infarction. Natural history and clinical profile, 332
- Clinical characteristics and results of noninvasive tests in 60 diabetic patients after acute myocardial infarction, 217
- Nontransmural versus transmural myocardial infarction. A morphologic study, 423
- Subepicardial aneurysms: a rare complication of myocardial infarction, 636

Myositis

- Serologic evidence for acute toxoplasmosis in polymyositis-dermatomyositis. Increased frequency of specific anti-Toxoplasma IgM antibodies, 313

Nephritis

- Nondiabetic renal disease in patients with diabetes mellitus, 613
- Prognostic factors in lupus nephritis. Contribution of renal histologic data, 382
- Systemic lupus erythematosus in patients with chronic renal failure, 602

Nephropathy

- Minimal-change lesion nephrotic syndrome with renal oncocytoma, 715
- T and B lymphocyte subsets in fenoprofen nephropathy, 9

Nephrotoxicity

- Amphotericin B nephrotoxicity in humans decreased by salt repletion, 476

Nervous system

- Differential changes of autonomic nervous system function with age in man, 249

Neurologic disease

- Central nervous system toxoplasmosis in homosexual men, 877
- Human botulism (type F)—a rare type, 893
- Limbic encephalopathy as a nonmetastatic complication of oat cell lung cancer. Its reversal after treatment of the primary lung lesion, 518

Neuromechanical properties

- Neuromechanical properties in obese patients during carbon dioxide rebreathing, 81

Nifedipine

- Evaluation of calcium-mediated vasoconstriction in chronic congestive heart failure, 795
- Relation of therapeutic response to nifedipine to coronary anatomy and motion of S-T segment during unstable angina pectoris, 57

Nitroprusside

- Death from cerebral hypoperfusion during nitroprusside treatment of acute angiotensin-dependent hypertension, 1071

Non-Hodgkin's lymphoma

- Aggressive large cell lymphoma of the ileum after long-term cyclophosphamide therapy for breast carcinoma, 882
- High-dose gallium imaging in lymphoma, 327
- Lymphosarcoma cell leukemia and other non-Hodgkin's lymphomas in leukemic phase, 110

Nontransmural infarction

- Nontransmural versus transmural myocardial infarction. A morphologic study, 423

Norepinephrine

- Differential changes of autonomic nervous system function with age in man, 249

Nosocomial infection

- Nosocomial infections and hospital deaths. A case-control study, 658

Nutrition

- Cholesterol, cancer, and public health policy, 494
- Diet-induced changes in serum transaminase and triglyceride levels in healthy adult men. Role of sucrose and excess calories, 624

(Continued on next page)

Nutrition (cont'd.)

Effect of 1,25-dihydrovitamin D₃ on calcium and magnesium absorption in the healthy human jejunum and ileum, 973

Fasting-enhanced immune effector mechanisms in obese subjects, 91

Misuse of hair analysis for nutritional assessment, 489

Nutrition and cancer (CCBSS), 843

Oat cell lung cancer

Limbic encephalopathy as a nonmetastatic complication of oat cell lung cancer. Its reversal after treatment of the primary lung lesion, 518

Obesity

Fasting-enhanced immune effector mechanisms in obese subjects, 91

Neuromechanical properties in obese patients during carbon dioxide rebreathing, 81

Occupational hazards

Airway function in lifetime-nonsmoking older asbestos workers, 631

Hepatitis B exposure in emergency medical personnel. Prevalence of serologic markers and need for immunization, 269

Lupus erythematosus-like disease due to hydrazine, 365

Ventilatory failure due to asbestos pleurisy, 911

Omentum

Massive omental reticuloendothelial cell lipid uptake in Tangier disease after splenectomy, 521

Ommaya reservoir

Neoplastic meningitis. Marked variations of cerebrospinal fluid composition in the absence of extradural block, 289

Oncocytoma

Minimal-change lesion nephrotic syndrome with renal oncocytoma, 715

Opportunistic infection

Central nervous system toxoplasmosis in homosexual men, 877

Multiple infections and death in a homosexual man (CPC), 855

Orthostatic hypotension

Simultaneous treatment of Raynaud's phenomenon and orthostatic hypotension, 537

Osteomyelitis

Unusual presentation of anaerobic osteomyelitis, 724

Osteoporosis

Evidence for two distinct syndromes of involutional osteoporosis (E), 899

Risk factors for spinal osteoporosis in men, 977

Osteosarcoma

Metastatic periosteal osteosarcoma causing cardiac and renal failure, 145

Oxytocin

Insulin and glucose requirements during the first stage of labor in insulin-dependent diabetic women, 607

Pacemakers

HLA B27-associated rheumatic diseases with severe cardiac bradyarrhythmias. Clinical features and prevalence in 223 men with permanent pacemakers, 210

Panniculitis

Panniculitis associated with histoplasmosis and alpha₁-antitrypsin deficiency, 150

Parasympathetic nervous system

Differential changes of autonomic nervous system function with age in man, 249

Parathyroid disease

Hypercalcemia and chest pain in a 48-year-old man (CPC), 337

Hypertension and hyperparathyroidism. Inverse relation of serum phosphate level and blood pressure, 17

Parenteral nutrition

Nutrition and cancer (CCBSS), 843

Penicillin G

Serious infections due to group G streptococci. Report of 15 cases with in vitro-in vivo correlations, 561

Perfusion

Cardiopulmonary toxicity in patients with breast carcinoma during plasma perfusion over immobilized protein A. Pathophysiology of reaction and attenuating methods, 278

Implications of normal exercise electrocardiographic results in patients with angiographically documented coronary artery disease. Correlation with left ventricular function and myocardial perfusion, 439

Pericardial disease

Clinical utility of pericardial fluid pH determination, 1077

Intrapericardial pheochromocytoma, 371

Legionella pneumophila pericarditis proved by culture of pericardial fluid, 534

Peripheral neuropathy

Pyridoxine deficiency and peripheral neuropathy associated with long-term phenelzine therapy, 887

Peritoneal dialysis

Efficacy of intravenous vancomycin in the treatment of gram-positive peritonitis in long-term peritoneal dialysis, 345

Rhodotorula rubra peritonitis in patients undergoing continuous ambulatory peritoneal dialysis, 349

Peritonitis

Efficacy of intravenous vancomycin in the treatment of gram-positive peritonitis in long-term peritoneal dialysis, 345

Rhodotorula rubra peritonitis in patients undergoing continuous ambulatory peritoneal dialysis, 349

pH

Clinical utility of pericardial fluid pH determination, 1077

Phenelzine

Pyridoxine deficiency and peripheral neuropathy associated with long-term phenelzine therapy, 887

Pheochromocytoma

Intrapericardial pheochromocytoma, 371

Philadelphia chromosome

Autologous marrow transplantation after karyotypic conversion to normal in blastic phase of chronic myelocytic leukemia, 1080

Phlebotomy

Arthritis of hemochromatosis. Clinical spectrum, relation to histocompatibility antigens, and effectiveness of early phlebotomy, 957

Phosphate

Hypertension and hyperparathyroidism. Inverse relation of serum phosphate level and blood pressure, 17

Physician distribution

Physician distribution—will it get worse instead of better? (MSS), 4

Pituitary disease

Empty sella of normal size in Sheehan's syndrome 585

Hyperprolactinemia. Long-term effects of bromocriptine, 868

Pituitary function

Combined testing of anterior pituitary gland with insulin, thyrotropin-releasing hormone, and luteinizing hormone-releasing hormone, 471

Plasma exchange

Complications of therapeutic apheresis, including a fatal case with pulmonary vascular occlusion, 171

Plasma perfusion

Cardiopulmonary toxicity in patients with breast carcinoma during plasma perfusion over immobilized protein A. Pathophysiology of reaction and attenuating methods, 278

Platelets

Idiopathic thrombocytopenic purpura, 1001

Pleurisy

Analysis of the differential diagnosis and assessment of pleuritic chest pain in young adults, 671

Ventilatory failure due to asbestos pleurisy, 911

Pneumococcus

Effect of underlying disease and age on pneumococcal serotype distribution, 199

Infection among 210 patients with surgically staged Hodgkin's disease, 97

Pneumocystis carinii

Multiple infections and death in a homosexual man (CPC), 855

Pneumonia

Alterations in lymphocyte cell surface markers during various human infections, 807

Effect of underlying disease and age on pneumococcal serotype distribution, 199

Fulminant pneumonia and death in an immunocompromised woman (CPC), 1043

Polymeric IgA rheumatoid factors

Induction of polymeric IgA rheumatoid factors in infective endocarditis, 785

Polymyositis

Presentation, treatment, and prognosis of idiopathic inflammatory muscle disease in a rural hospital, 433

Serologic evidence for acute toxoplasmosis in polymyositis-dermatomyositis. Increased frequency of specific anti-Toxoplasma IgM antibodies, 313

Postmortem examination

Medical genetics. Huntington's chorea, and legal questions pertaining to autopsy, 157

Potassium

Hypokalemia and diabetes mellitus (E), 553

Uremia

- Decreased macrophage-mediated suppression of lymphocyte activation in chronic renal failure, 571
- T cell subsets and cellular immunity in end-stage renal disease, 734

Urticaria

- Cimetidine-induced cutaneous vasculitis, 875

Valsalva maneuver

- Detection of left ventricular dysfunction in ambulatory subjects with the bedside Valsalva maneuver, 241

Valve replacement

- Cardiac valvular replacement in carcinoid heart disease, 896

Vancomycin

- Efficacy of intravenous vancomycin in the treatment of gram-positive peritonitis in long-term peritoneal dialysis, 345

Vascular disease

- Chest pain, collapse, and death in late pregnancy (CPC), 691
- Cyanotic feet and renal failure in a 67-year-old man (CPC), 509

Vasculitis

- Budd-Chiari syndrome and renal failure in Behcet disease. Report of a case and review of the literature, 541

(Continued on next page)

Vasculitis (cont'd.)

Cimetidine-induced cutaneous vasculitis, 875

Vasoconstriction

Evaluation of calcium-mediated vasoconstriction in chronic congestive heart failure, 795

Simultaneous treatment of Raynaud's phenomenon and orthostatic hypotension, 537

Suppression of the renin-angiotensin system by intravenous digoxin in chronic congestive heart failure, 445

Vasodilators

Effects of oral hydralazine on gas exchange in patients with cor pulmonale, 937

Ventilation

Absence of positional change in pulmonary diffusing capacity in systemic sclerosis, 305

Airway function in lifetime-nonsmoking older asbestos workers, 631

Bronchodilator response to oral aminophylline and terbutaline versus aerosol albuterol in patients with chronic obstructive pulmonary disease, 697

Effect of outpatient treatment of asthma with beta agonists on the response to sympathomimetics in an emergency room, 781

Lactic acidosis in severe asthma, 580

Neuromechanical properties in obese patients during carbon dioxide rebreathing, 81

Prevalence and clinical correlates of pulmonary arterial hypertension in progressive systemic sclerosis, 65

Sputum and blood eosinophils during corticosteroid treatment of acute exacerbations of asthma, 929

Ventilatory failure due to asbestos pleurisy, 911

Ventricle

Delayed repolarization syndrome, 393

Frequency and distribution of senile cardiovascular amyloid. A clinicopathologic correlation, 618

Nontransmural versus transmural myocardial infarction. A morphologic study, 423

Ventricular arrhythmia

Prophylactic use of lidocaine to prevent advanced ventricular arrhythmias during pulmonary artery catheterization. Prospective double-blind study, 906

Vertebrae

Risk factors for spinal osteoporosis in men, 977

Vindesine

Cisplatin, vindesine, and bleomycin chemotherapy of local-regional and advanced esophageal carcinoma, 645

Viral infection

Hepatitis B exposure in emergency medical personnel. Prevalence of serologic markers and need for immunization, 269

Hepatitis in patients with acute nonlymphocytic leukemia, 413

Viruses and human neoplasia. Approaching etiology (E), 377

Vitamin B₆

Pyridoxine deficiency and peripheral neuropathy associated with long-term phenelzine therapy, 887

Vitamin D

Effect of 1,25-dihydrovitamin D₃ on calcium and magnesium absorption in the healthy human jejunum and ileum, 973

Warfarin

Prospective trial of warfarin and dipyridamole in patients with membranoproliferative glomerulonephritis, 920

Weight

Fasting-enhanced immune effector mechanisms in obese subjects, 91

Neuromechanical properties in obese patients during carbon dioxide rebreathing, 81

Xanthomatosis

Normolipemic subcutaneous xanthomatosis, 1065

Zinc

Abnormal zinc metabolism in type II diabetes mellitus, 273
